

Dear Colleagues:

We are pleased to enclose a copy of a publication that reflects a global perspective on multiple sclerosis care.

Compass is an educational journal, in a non-commercial nature. Compass was produced to create a platform that will allow nurses in different countries who provide care for people with MS to learn from each other, share ideas and exchange information. This journal contains articles that focus on international perspectives of care and caring and will be of interest to our MS team in North America.

We thank Teva Neuroscience for including us in this important outreach service to MS healthcare professionals.

We are grateful for the support of all of our corporate sponsors and for their ongoing attention to the needs of our membership.

I hope you enjoy reading this publication.

Sincerely,

June Halper, MSCN, ANP, FAAN  
Executive Director
